

Good evening Ray,

I'm writing to you as development director for the charity, Blind Cricket England and Wales [BCEW] to ask for your help and advice on the subject of pitch availability in Somerset.

The new Somerset visually impaired cricket club are entering our southern development league for the first time this year and are having trouble finding grounds for some of their Saturday matches.

The two dates in question are June 16th & 30th.

I realise that Saturday is always a difficult day to find available pitches but was wondering if you knew of any clubs that have grounds free on these dates.

The Somerset VICC is gaining momentum now, after playing friendlies last year and giving a demonstration during a county championship game at Taunton last August.

They have had good support from the county club and this would be good publicity for any local club able to help them in their predicament.

I would appreciate any advice you could give on the subject.

Look forward to hearing from you.

Kind regards,

John Garbett
Development director
