

Player Loan Scheme

1. All players should be registered with their 'Parent' club.
2. A club that wishes to borrow a player, who is not currently selected for his parent club, should complete the Dual Player Registration Form and email it to Ray Hancock or David Derrick within two days of the completion of the first match. It will not be necessary to complete this form again for additional matches with this particular club.
3. Club officials, of the club borrowing the player, must register him for his 'new' club in the Club Details section on the website. This registration is in addition to his parent club registration.
4. A player may be 'loaned' to any number of clubs, but in each case another form must be completed as per instructions in No. 2 above.
5. Another aspect of the loan scheme. A player who wishes to make himself available for local clubs may put his details (name, club, tel. no., email address) on the SCL website. He must do this by emailing these details to Ray Hancock or David Derrick who will put the information on line. Needy clubs can then look for players in this "Player Pool".
6. Loaned players may not play against any team belonging to their parent club.
7. Players who become 'free' due to no game for their parent club (eg. some teams in divisions 1 & 5 will have free Saturdays due to withdrawals of North Curry and Horrington) may not be loaned.
8. A key aspect of this system is TRUST. The Management Committee will be keeping a watchful eye on the system and trusts that it will not be engaged in an investigation into Team Strengthening.
9. The system is designed to help fringe players get a game of cricket when otherwise they will miss out. Hopefully, it will also give teams that are struggling to find a full team of players, the ability to play a game, rather than cancel a match.
10. Ray Hancock (01823 444779) raysomcricket@randj.org.uk or David Derrick (01823 660687) or at david230275@googlemail.com) will be happy to answer questions about this scheme.
